Students rate Brescia highly in international survey

Brescia students rate their experiences at Brescia highly in a new survey conducted by the National Survey of Student Engagement. The survey of 5,268 University students is conducted by the National Survey of Student Engagement (NSSE) and measures student learning and development. The survey is sponsored by the American Association of Higher Education and the Carnegie Foundation for the Advancement of Teaching. The results were released on the February 24, 2010.

Brescia University College

2010 Annual Report

Dr. Colleen Hanycz
President
Brescia University College

Van Genderen April 30, 2010 (007)
Dr. Ed Bell co-authored the keynote speech delivered by Sr. Frances Harington, O.S.B., former Director of Studies at Brescia, when he discovered “Bishop’s Wife: Sir John Harington and Prelatical College.”

Dr. Paula Dworatzek and her graduate student, Elisa Wilson, presented a research project on “Gender roles and women in leadership in Canada: A survey of beliefs, attitudes, and behaviors.” Their research revealed that females, as the second-largest demographic at Brescia, are leading initiatives at the university, and their research findings were shared with the audience. Dr. Dworatzek also received the UWO Excellence in Teaching Award for her mentorship of students.

Dr. Weiwei Da gave a presentation on “The impact of diet on mental health and cognitive function in aging populations.” Her research, which was published in the Journal of Geriatric Psychiatry and Neurology, revealed that a healthy diet can help improve mental health and cognitive function in older adults.
