

# BUSINESS DEGREE

## BRESCIA UNIVERSITY COLLEGE & NOTRE DAME OF MARYLAND

### OVERVIEW

Brescia is pleased to announce a partnership with Notre Dame of Maryland University, located in Baltimore. Students will have the opportunity to explore two different campuses while earning a four-year business degree, specializing in either general business or international business.

Students will study for two years at Brescia in the Bachelor of Management and Organizational Studies program, then transfer to Notre Dame of Maryland for their final two years. The final degree will be awarded by Notre Dame of Maryland University.

### MANAGEMENT AND ORGANIZATIONAL STUDIES AT BRESCIA

Management and Organizational Studies students at Brescia benefit from small class sizes and a supportive environment. Students have the chance to experience a broad variety of learning methods – field studies, simulations, case studies, exercises, live problems, as well as lectures.

This program allows students to enrol in a variety of social sciences and MOS courses which will help develop employer-sought skills such as communication, research, analysis, and critical thinking. Students develop a strong base of business foundation knowledge. In addition, students are welcome to join Brescia's business club, 'The Pink Ties', to gain a sense of community, leadership opportunities, and to develop business-related skills.

### ABOUT NOTRE DAME OF MARYLAND UNIVERSITY

Notre Dame of Maryland is accredited by the Middle States Association of Colleges and Secondary Schools and by the Maryland State Department of Education. It is an independent university, and the first Catholic women's college in the United States to award a four-year baccalaureate degree. Notre Dame of Maryland belongs to a consortium of universities within the Baltimore area including John Hopkins University, Maryland Institute College of Art, Coppin State University, Morgan State University, and Towson University.

### BUSINESS AT NOTRE DAME OF MARYLAND

Business at Notre Dame of Maryland Notre Dame actively engages students in learning through internships, consulting assignments, departmental club activities, as well as the use of the case method of teaching. Notre Dame business graduates acquire a thorough understanding of core business concepts, as well as learn how to act ethically, think critically and creatively, and communicate effectively.

The General Business and International Business degrees are architected to prepare today's students to be tomorrow's business leaders. The requirements of the business majors have been greatly influenced by the needs of the dynamic business community where students intern and work upon graduation. The curriculum was recently updated to include course work in teamwork, negotiation, leadership, communications, data analysis and business research in addition to the traditional areas of business study which include economics, marketing, management, accounting and finance.

## Brescia & Notre Dame of Maryland

“Meeting outside of class is very natural for Brescia faculty and students. It happens because of the relationships we are able to build. We actually know each other’s names and that goes a long way to greeting each other on campus. I am always willing to meet with students because their success is my success.”

**MELISSA JEAN**  
ASSOCIATE PROFESSOR,  
MANAGEMENT & ORGANIZATIONAL STUDIES
