

*EMAIL SENT AUGUST 27, 2018*

I'm pleased to share that Western will be introducing a new emergency mass notification system.

AlertU Western will automatically sign up all Western and affiliate students, staff and faculty. Launching September 1, 2018, watch out for information on AlertU Western and how to personalize the system.

Information will be available at [alert.westernu.ca](http://alert.westernu.ca).
