

March 24, 2020

The Ontario government announced yesterday that all businesses and organizations move to an “essential services” model as of 11:59 p.m. on March 24, 2020. Essential services at Brescia include those services necessary to enable the University to:

- Ensure the safety of our students, staff and faculty
- Maintain our residence community as a healthy living space for our students who are unable to return to their home communities
- Maintain our facilities and preserve our critical infrastructure
- Continue the delivery of administrative support functions in order to maintain Brescia’s core operations (mail, courier and deliveries will continue to be accepted)

Brescia’s academic programming and student support services have now moved entirely online, where we continue to support our students through the rest of their academic term and into the summer. We appreciate the patience and adaptability of our community as we respond to this ever-changing situation.

Sincerely,
Susan Mumm, D. Phil, FRHistS
